MidiMax
Track Mounted LED Wallwasher

w

Applications

MidiMax has the cleanest profile, designed with the driver concealed within the housing, and is available in RGBW and a range of beam spreads. MAX is a family of gracefully proportioned cylinders designed for low to very high ceilings.

Features

- A concealed swivel provides 385° horizontal rotation and 0-90° tilt. The swivel is permanently tensioned, allowing the luminaire to remain fixed at the desired angle
- A hammertone aluminum reflector and a 40° x 70° spread lens deliver an even floor-to-ceiling, side-to-side wash of light
- The assembly is keyed relative to luminaire housing to retain critical lens orientation

Wallwash (W)

- The internal reflector kicks light vertically up to the ceiling line and down to the floor, while the 40° x 70° spread lens extends the beam in two directions
- A uniquely designed lens and precisely spun reflector enables a 1:1 spacing ratio for unparalleled uniformity
