Applications

Magic Wand wallwasher is designed with the extraordinary ability to make small spaces feel larger.

Features

- A 2.75" aperture and seamless construction conceal a sophisticated optical system
- A concealed swivel provides 385° horizontal rotation and 0-90° tilt. The swivel is permanently tensioned, allowing the luminaire to remain fixed at the desired angle
- The optical assembly includes an aluminum reflector and a 40° x 70° spread lens, which produce a floor-to-ceiling, side-to-side wash of light

Wallwash (W)

- The internal reflector kicks light vertically up to the ceiling line and down to the floor, while the 40° x 70° spread lens extends the beam in two directions
- A uniquely designed lens and precisely spun reflector enables a 1:1 spacing ratio for unparalleled uniformity
