Series	Lumens	CCT	Finish
--------	--------	-----	--------

MS-V4 1200L	27K	WH
	30K	BK
	35K	
	40K	
	50K	

**(50K Is Not
Compatible
with XIA-95+)**

Note: All extra optical accessories, aperture assemblies, and optics can be ordered separately. Check [EPL Website](#) for ordering nomenclature.

Motorized Track Luminaire

- Remote adjustment of 0-360° pan, 0-90° tilt, on/off control, & 100% to 1.0% dimming; manual adjustment of 12° to 34° beam spread (White) or 12° to 32° beam spread (Black)

Seamless Installation

- Saliot is exclusively available for mounting on Edison Price Lighting's 120V SightLine track. Mounting on outlet box, Eutrac, or global track system also available. Contact Edison Price Lighting
- Not suitable for use on vertically mounted track and incompatible with Unicep single-fixture track receptacles.

Hands-Free Control

The Saliot product family eliminates the need for manual adjustments, an ideal feature for high-ceilinged spaces with frequently changing lighting programs, such as houses of worship, lecture halls, museums, galleries, and showrooms.

Durable Aluminum Extrusion Track System Construction

Edison Price Lighting Made in USA track systems are constructed from extruded aluminum for lasting durability and an elegant profile – strong enough for mounting heavy-duty Saliot fixtures while providing a discreet design ideal for high-end applications.

Bluetooth Dimming: Smooth, Consistent Quality Illumination

- Luminaire is only suitable for use only on an electrical circuit that does not include a dimming device of any kind
- Luminaire may be dimmed only by Bluetooth

Options

- Compatible with track mounting or surface mounting
- Available in either white or black exterior finishes; interior surfaces are black.

Dimming & Driver Information

Luminaire may be dimmed only by Bluetooth via a smart device with the Saliot iOS or Android app.

Warranty

Fixture covered by MinebeaMitsumi warranty; track adaptor covered by Edison Price Lighting 5-year warranty.
