surface mounted LED ring-baffled spotlight with integral dimmer

OG model with lens clips

OP model without lens clips

- Luminaire is designed for mounting on a 4" octagonal outlet box (by others).
- Whether operated on 120-volt or 277-service, luminaire may be dimmed
 to 10% by an integral rotary dimmer located on one side of the driver
 case. Dimmer control shaft is spring loaded, permitting shaft to be
 exposed for adjustment and then depressed flush with the driver case
 to conserve dimmer setting. 'Clock face' markings permit registration
 of dimmer setting. (See illustrations below.)
- Bluetooth controls and integral rotary dimmer can be specified together in the same fixture. Users can dim by the protocol of their choice, switching between the two options as desired.
- Driver case measures 5 1/2" long x 4" wide x 1 7/8" high.
- Optical assembly consists of an integral 9° reflector and a matte black
 concentric ring baffle which increases beam control, eliminates spill
 light and minimizes glare. Ring baffle may be ordered with ('OG') or
 without ('OP") lens clips. Clips accept one or two of a number of Optical Accessories including spread lenses, a beam smoother, color filters
 and light reduction screens.
- Luminaire provides 385° horizontal rotation and vertical adjustment from 0° to 90°. Lamp focus can be locked by tightening two collar clamps using a ⁹/₆₄" hex key.
- For more information, click here.

Warranty Details

- This fixture is not suitable for use in direct sunlight, as under a skylight.
 Fixtures used in this way are not covered by our warranty.
- Our 5-year warranty does not include the provision of extraordinary means of access, e.g. scaffolding or Genie lifts, to service a product.

IDM Artima/5 CZS NSP-OBM is a surface mounted 9° spotlight powered by Citizen chip-on-board LED's providing either a CRI of 97 within 2-step MacAdam ellipses or a CRI of 80 within 3-step MacAdam ellipses, capable of CBCP as high as 55,671. See tables on reverse for wattages and efficacies.

Dimming Notes:

- Fixture may be dimmed only by its integral dimmer.
- Fixture cannot be dimmed by a dimmer of any kind on the fixture circuit.
- Fixture may be damaged by use of an incandescent or ELV dimmer on the fixture circuit.
- Fixture will not be dimmed or damaged by use of a 0-10V dimmer on the fixture circuit.
- Combination with wireless Bluetooth controls available on <u>Bluetooth</u> model.
- ► For luminaires modified for 50A or 60A track systems, contact factory.
